PROFESSIONAL SUMMARY

Frontend Developer with hands-on experience building responsive and user-friendly web applications using React, JavaScript, HTML, and CSS. Experienced in consuming REST APIs, building reusable components, and creating responsive interfaces. Passionate about writing clean, maintainable code and continuously improving through real-world projects.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript (ES6+), React, HTML5, CSS3

Tools & Technologies: Git, GitHub, Vite, REST APIs, Fetch API, Local Storage

React & Frontend: useState, useEffect, Context API, Responsive Design, Reusable Components

PROJECTS

Recipe Finder

React | JavaScript | Vite | TheMealDB API

- Built reusable React components and managed application state with useState.
- Consumed a REST API with Fetch API to retrieve and display recipe data.
- Created a responsive interface for desktop and mobile devices.
- Implemented loading and empty-state handling for a clearer user experience.

[Live Demo](#) | [GitHub](#)

SpendWise Expense Tracker

JavaScript | HTML | CSS

- Built a responsive expense tracker using vanilla JavaScript.
- Stored transactions in Local Storage so data remains after page refresh.
- Calculated income, expenses, and total balance dynamically.

Movie Finder

JavaScript | HTML | CSS | REST API

- Built a responsive movie search application using a public movie API.
- Displayed movie posters and details based on user searches.
- Handled API requests and updated the interface dynamically.

PROFESSIONAL EXPERIENCE

Data Collector - Ghana Statistical Service

2024-2025

- Collected and verified field data accurately.
- Collaborated with team members to meet project deadlines.
- Maintained organized and accurate records.

EDUCATION

University of Cape Coast

2016

Bachelor of Science (B.Sc.) in Psychology
